## WORK EXPERIENCE

**Target Store Online Shop**                 2025 - PRESENT
Web Developer

- Developed full-stack e-commerce web app with PayPal, KHQR, and Phillip Bank API integration.
- Built responsive admin dashboards to manage products, orders, and users.
- Created mobile-friendly interfaces to enhance customer shopping experience.
- Designed RESTful APIs for smooth frontend-backend interaction.
- Used React (frontend) and Node.js/Express (backend); integrated MongoDB for scalability.
- Optimized site performance and ensured cross-browser/device compatibility.

Golobal Security Solutions of Cambodia         2022 - 2024
Security Guard

- Monitored building entrances and exits to prevent unauthorized access.
- Performed routine patrols of premises to deter criminal activity.
- Responded to alarms, emergencies, and reported incidents.
- Logged daily activity reports, incident reports, and maintenance issues.

**E-commerce Website & App Development**

Personal/School Project

- Developed full-stack e-commerce websites with secure checkout functionality using PayPal and KHQR QR payment systems.
- Built mobile-friendly e-commerce apps enabling customers to browse, shop, and pay with ease.
- Created admin dashboards for web and mobile platforms to manage products, orders, users, and analytics.
- Designed and implemented RESTful APIs for seamless frontend-backend integration.
- Built additional dashboards using Laravel (PHP) for backend management and React.js for dynamic frontend interfaces.
- Used MySQL and MongoDB to handle structured and unstructured data efficiently.
- Focused on responsive design, data validation, role-based access, and real-time data updates.
